the extending space

'the extending space' conceptual garden is inspired by the variety of landscapes found within the protected Pfyn Forest National Park in the Swiss Valais region. It is not only one of Europe's last remaining large pine forests but also home to one of the most significant and diverse meadowlands in Switzerland.

By cleverly exploring the three dimensions of the small 10m x 10m garden, Nicole and Daniel show how the spirit of a large and varied landscape in the Swiss Valais can be captured within a contemporary and minimalist design. The garden aims to provide the spatial experience that could be found at a forest edge where views are framed and enveloped by large pine trees and shrubs, which recede to offer glimpses of wider open meadows, rivers and lakes beyond.

The distinct and varied microclimates within the Pfyn Forest region offer a diverse range of plant species which are subtly reflected within the show garden's planting scheme, from the Pine forests shrubs and trees through to the Rhône flooded wildflower meadows and warm grass plains.

Nicole and Daniel aim to highlight the beauty and versatility of the species and show how effectively they can be used in gardens of any scale, while raising awareness of the decline of pine across warmer parts of Europe. Species of pine featured in the garden include *Pinus sylvestris* 'Watereri' and *Pinus mugo* 'Mops'.

The hard landscaping in the garden is used to heighten the overall spatial experience. The focal point being a striking Pine pergola which emerges organically from the hedging, with the widening space between its beams framing the extending space. The careful placement of the Swiss granite paving and the copper panelling also play with scale. While the delicate texture introduced on the copper panelling evokes morning mist winding through the pine forest.

plant list

Buxus sempervirens arborescens
 Pinus mugo 'Mops'
 Pinus sylvestris 'Watereri'
 Sorbus aria 'Lutescens'
 Taxus baccata

Viburnum lantana
 Viburnum opulus

Anchusa azurea 'Loddon Royalist'
 Anthriscus sylvestris
 Aquilegia vulgaris 'William Guinness'
 Asplenium trichomanes
 Briza media
 Campanula persicifolia 'Alba'
 Centaurea montana 'Jordy'
 Cerastium tomentosum
 Deschampsia cespitosa 'Goldschleier'
 Digitalis lutea
 Dryopteris filix-mas
 Euphorbia cyparissias 'Fens Ruby'
 Fragaria vesca
 Geranium phaeum 'Album'
 Geranium phaeum 'Lily Lovell'
 Geranium sanguineum 'Alba'
 Gypsophila repens
 Iris germanica 'Jane Philipps'
 Iris germanica 'Irish Tune'
 Nepeta x faassenii 'Walkers Low'
 Polygonatum multiflorum
 Polystichum aculeatum
 Salvia pratensis 'Rhapsody in Blue'
 Stipa tenuissima
 Thymus pulegioides 'Aureus'
 Verbascum chaixii 'Album'
 Verbascum phoeniceum 'Violetta'

Win a garden consultation

auderset fischer offer one lucky winner a unique chance to discuss their own garden with them. As part of this fantastic prize, the designers will either visit you in your garden, or will speak to you via Skype or phone for a private two hour consultation. auderset fischer will produce a sketch plan with planting ideas, answering your questions to help you transform your garden.

To enter, just tell us in 50 words or less:

Why do you love the auderset fischer garden at Chelsea?

Email your entry to: info@audersetfischerdesign.com

Nicole Fischer and Daniel Auderset met at Inchbald School of design. The two have bravely taken on the challenge of designing a Main Avenue Show Garden at RHS Chelsea Show. They have predominantly self funded this project to help showcase their design talent.

TERMS AND CONDITIONS

- Competition is open 20–26 May 2014
- Date and timing of the consultation are subject to availability
- This prize is non-transferable and must be redeemed by the successful winner only
- The judges' decision is final
- No garden sponsors or suppliers may enter the competition
- One entry per person

Nicole Fischer

Nicole grew up in Hamburg, Germany. She speaks German, English and French.

Nicole is a trained translator and interpreter in English and French. She studied history, German and French literature in Hamburg and Oxford.

After three years in the casting department of a German media conglomerate, Nicole founded her own casting agency in Munich, with more than 50 film and TV productions to her name. With a desire to change her career and follow her passion for garden design, Nicole came to London in 2012 to study at the Inchbald School of Garden Design. Nicole graduated in July 2013, receiving the Gardens Illustrated Prize.

Nicole splits her time between London and Munich.

Daniel Auderset

Daniel Auderset grew up in Liebstorf, Switzerland. He lives in Bern and speaks German, French and English.

He studied Business Administration in Fribourg and Burlington, Vermont, and worked in telecommunications and healthcare.

From early childhood Daniel has been fascinated by nature and, especially by plants. On holidays he visited gardens in Austria, France and Spain, where his interest in landscape architecture and garden design was aroused. At seventeen he designed his first garden. In his mid-twenties Daniel began to work as a gardener and in 2005 he started his own garden design business. The number of enthusiastic clients is steadily growing.

He came to London to enhance his gardening qualifications and study at the Inchbald School of Garden Design.

Sponsored by Deutsche Asset & Wealth Management

Deutsche Asset & Wealth Management is proud to support 'the extending space', a garden inspired by one of Europe's most precious habitats.

We work with individuals and families to nurture their own valuable assets and preserve them for future generations. Our international team assists clients to protect and grow their wealth over many years: we provide wealth management and private banking solutions, as well as a complete range of investment solutions across traditional and alternative assets.
